PASTORIUS COLONY

History of the Organization in Wichita.

Today is the day that the German-Amerfean citizens in all parts of the United States celebrate, being commomorative of the founding of the Pasterians colony of Germans, the first on American soil, in 2687. Wichita has a big celebration at Turner Hall on South Main street, given under the auspices of Germania lodge, No. 25, Sons of Hermann. This will begin at 2 o'clock this afternoon and continue during the afternoon and evening.

Makes People Well.

The one true specific for diseases arising

from a debilitated nervous system is Paine's

celery compound, so generally prescribed

by physicians. It is probably the most re-

markable remedy that the scientific research

of this country has produced. Prof. Edward

E. Phelps, M. D., L. L. D., of Dartmonth college first prescribed what is now known

the world over as Paine's celery compound,

a positive cure for dyspensia, biliousness.
